

## Who We Are

iCIO Community is an Indonesian community of senior IT leaders and decision makers who come together to share their experience, knowledge and wisdom.

iCIO Community has been officially inaugurated by Rudiantara, Minister of Communication and Information Technology as the first IT community in Indonesia with legal entities. This community aims to social activities to support development of ICTs in Indonesia to extend economic opportunities to millions of people. One common contribution is that it increases productivity and makes government and society work more efficiently by utilizing ICT.

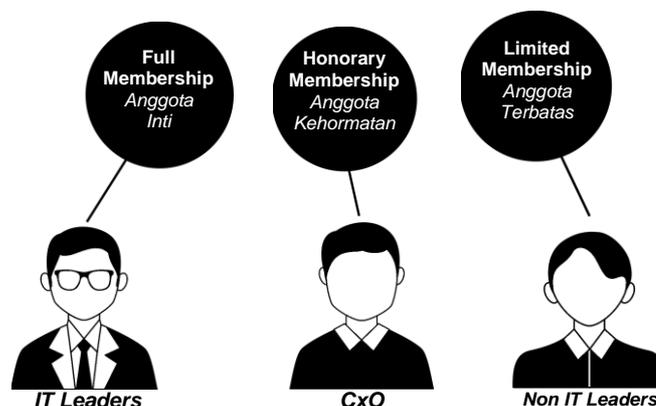

## Our Mission

To become a premiere community of IT leaders and decision makers that share and leverage knowledge among members, collaborate to groom effective leadership skills, contribute to national IT capacity building, and partner for economic growth.

## Our Membership Categories

Our members are individuals from cross industries throughout Indonesia comprised into three (3) categories\*:

- **Full Membership** is designed for the IT decision maker in company (specific for IT user company and not IT solutions provider). For example: Chief Information/Technology/Digital Officer, IT Director, GM IT or similar positions.
- **Honorary Membership** is designed for the executive level that put trust and support in IT development. For example: Chief Executive/Operating/Financial Officer and other CxO levels.
- **Limited Membership** is designed for roles are none of above but have importance, desires and goals in IT. For example: Professors, IT experts, IT vendors and non IT leaders.
